Appeals & Referrals

Referral

The Referrals Committee, Mr. Justice Brian McGovern (in the chair), Mr. Nicholas Wachman and Mr. Peter M. Allen convened at the Offices of the Irish Horseracing Regulatory Board on Monday 15th, Tuesday 16th, Wednesday 17th, Thursday 18th, Friday 19th, Monday 22nd, Tuesday 23rd, Wednesday 24th and Thursday 25th May 2023 to consider whether or not Luke Comer (Trainer) was in breach of any rules as a result of analytical reports received from LGC Laboratories, Newmarket, UK relating to horses returned in training with him.

The first of these reports stated that the hair sample taken from He Knows No Fear following his run in the Manguard Plus Trigo Stakes at Leopardstown on 16th October 2021, contained methandienone (MD) and methyltestosterone (MT). The B sample confirmed the result.

Following Out of Competition Testing at Mr. Comer's training establishment on 10th November 2021 hair samples taken from He Knows No Fear, Old Tom Higgins, Boxing Hero, Grand D'Espagne (FR), Aircraft Carrier, Powerful Don, Wee Jim, Great Moon, Our Man Flint, Questionare (GB), Green Force and Blyton (GB) were also found to contain MD and/or MT. The B samples confirmed these results.

Evidence was heard on behalf of Mr. Comer from: Luke Comer Senior, Trainer, Luke W. Comer, Trainer, Jim Gorman, Trainer and Assistant Trainer to Mr. Comer Senior, Dr. Anneleen Decloedt, Project Lead at Quality Control cv (Belgian independent inspection body) and post-doctoral researcher at Ghent University, Dr. Ursula Fogarty, Head of Pathology & Veterinary Surgeon of the Irish Equine Centre, John Gough, Analytical Chemist, Professor Pascal Kintz, Professor of Legal Medicine, University of Strasbourg and Senior Forensic Expert and Head of Laboratory of Toxicology, Institute of Legal Medicine of Strasbourg, University of Strasbourg, Professor Maria Manuel Silva, Assistant Professor of Pharmaceutical Chemistry, Faculty of Pharmacy, University of Coimbra, Portugal, Professor Jorge Salvador, Professor of Pharmaceutical Chemistry, Faculty of Pharmacy, University Coimbra, Portugal, Professor Scott Stanley, Endowed Professor of Pharmacology and Toxicology at the University of Kentucky, Dr. Kevin Corley, Veterinary Surgeon, Professor Deirdre Campion, UCD Veterinary Biosciences and Veterinary Pharmacology Dr. William Salminen, Professor Andreas Lehner, Veterinary Analytical Toxicologist

Evidence was heard on behalf of the IHRB from: Dr. Lynn Hillyer, IHRB Chief Veterinary Officer and Head of Equine Anti-Doping, Dr. Bob Gray, Chief Scientist Animal Sports, LGC Dr. James Scarth, Laboratory Director Animal Sports & Specialised Analytical Services, LGC Dr. David Sykes, Regulatory Veterinary Consultant Professor Stuart Paine, Pharmacokineticist, University of Nottingham Dr. Mark Dunnett, Consulting Equine Toxicologist Dr. Benjamin Moeller, Associate Professor of Clinical Equine Analytical Chemistry, University of California Davis

The Referrals Committee issued a written decision regarding the finding of breaches and sought submissions from the parties on the appropriate sanctions, before issuing a written decision on sanction. Both decisions are set out below:

The Committee sat to commence this inquiry on 20th February 2023 and, having heard submissions on behalf of Mr. Comer and a reply on behalf of the Board, the hearing was adjourned to 15th May 2023. The hearing took place on 15th, 16th, 17th, 18th, 19th, 22nd, 23rd, 24th and 25th May 2023 at the premises of the Board at the Curragh, Co. Kildare. At the conclusion of the hearing, the parties were given directions concerning the exchange of written submissions and a further period to make responses to the submissions received. The Committee heard a significant amount of oral testimony, much of which was given by expert witnesses, and numerous scientific reports and studies were referred to in the course of that evidence. Some of the evidence was given in person and in other cases witnesses gave evidence by video link. Each of the parties was represented by Solicitors and Counsel and the hearing was conducted in accordance with the Rules of Racing and the Irish National Hunt Steeplechase Rules (hereinafter referred to as "the Rules"). In accordance with Rule 271 the standard of proof required was proof on the balance of probabilities.

The Respondent, Mr. Comer, is alleged to have been in breach of the Rules as follows:

Charge 1. It is alleged that Mr. Comer was in breach of Rule 96(a) in the following circumstances: The IHRB took hair samples (A and B samples) from a horse named He Knows No Fear on 16th October 2021 after a race at Leopardstown. The A sample was found to contain prohibited substances, namely methandienone (MD) and methyltestosterone (MT). The B sample confirmed the result.

Charge 2. It is alleged that Mr. Comer was in breach of Rule 96(b) and/or (c) of the Rules in the following circumstances: IHRB staff attended Mr. Comer's Training Establishment at Eagle Lodge, Kilternan on 10th November 2021 and took hair samples from the following horses: He Knows No Fear, Old Tom Higgins, Boxing Hero, Grand d'Espagne, Aircraft Carrier, Powerful Don, Wee Jim, Great Moon, Our Man Flint, Questionare, Green Force, and Blyton. The A samples were found to contain MD and/or MT and the results were confirmed by the B samples.

Charge 3. Mr. Comer is alleged to have been in breach of Rule 147(vi) in his capacity as a trainer. The Rule provides that a trainer may only train horses at a Training Establishment licensed by the IHRB. It is alleged he trained horses at Ballinteskinn Stud which is not licensed by the IHRB. The horses in question are: He Knows No Fear, Seattle Sound, Eskimo Komet, Atlantic Island, Bradesco, Dr. Patrick, Green Force, Force of the Moon, Broad Street, Desert Wind, Guild, Seattle Creek, Scarlet Seymore, Wee Jim, Sods Law, Grand d'Espagne, Eskimo Lil, Four Strong Winds, and Aircraft Carrier.

Charge 4. Mr. Comer is alleged to have breached Rule 272(i) in that the matters alleged against him, if proved, constitute conduct or behaviour prejudicial to the integrity, proper conduct or good reputation of horseracing.

In advance of the hearing, the Committee received agreed Books containing, inter alia, witness statements and Scientific papers and other material which the parties intended to use at the hearing. Among the list of witness statements was one entitled "Report of independent investigation into alleged doping of horses at Eagle Lodge". The author of the report was a retired Judge of the Court of Appeal and it appears, from the submissions, that he was assisted by Senior Counsel. The Committee members agreed among themselves that they should not read that statement and at the commencement of the hearing ruled the evidence in the statement inadmissible. The Committee was appointed under the Rules to carry out an investigation and is obliged to reach its own conclusions based on the evidence before it. The evidence before the Committee was heard by listening to oral testimony which was tested by cross examination and by examining documents put in evidence. The Committee felt that it should not be influenced by a parallel enquiry (commissioned by one of the parties) dealing with the very matters which it had to consider.

Prior to the hearing, a great amount of correspondence was generated around the testing of the hair samples. On the first day of the hearing Mr. Comer acknowledged the presence of the prohibited substances in the horses referred to in Charges 1 and 2. In those circumstances, the Committee agrees that the issues to be considered by the Committee are those enumerated in para 30 of Mr. Comer's submissions of 6 June 2023, namely:

1. Were the prohibited substances concerned administered unknowingly or through environmental contamination?
2. Did Mr. Comer take all reasonable precautions to avoid a breach of Rule 96?
3. Did Mr. Comer train racehorses at Ballintesklin Stud in contravention of Rule 147(vi)?
4. Did Mr. Comer act in a manner prejudicial to the integrity, proper conduct or good reputation of horse racing?
5. What sanctions (if any) should the Committee impose on Mr. Comer in the circumstances?

Methandienone (MD) and methyltestosterone (MT) are androgenic anabolic steroids. They are not endogenous. No products containing these androgenic anabolic steroids are licensed for use in horses in Ireland and the use of anabolic steroids in thoroughbred horses training and racing in Ireland is prohibited. MD and MT are Prohibited At All Times (PAAT) substances, as set out in Rule 20(v) and Regulation R4 part 1.2(a).

It is worth stating, at the outset, that Mr. Comer has not been charged with a breach of Rule 273 (i). That Rule concerns "Any person who administers or attempts to administer or connives at the administration to a Horse of any Prohibited Substance."

Charge 1 relates to a sample taken from He Knows No Fear after a race at Leopardstown on 16 October 2021. Charge 2 relates to samples taken from 12 horses during an unannounced inspection at Eagle Lodge, Kiltiernan on 10th November 2021. The evidence concerning that inspection established that no attempt was made to impede the investigators and no prohibited substances were found on the premises. No articles or paraphernalia that might be associated with the administration of a prohibited substance were found.

Mr. Comer has admitted that traces of prohibited substances (MD and/or MT) were found to be present in the horses referred to in Charges 1 and 2. He categorically denies that either he or any of his staff were involved in doping the animals and has defended his position on a number of grounds. In so far as there were traces of MD and/or MT found he maintains that the traces found were very small. This was conceded by Dr Hillyer, the Chief Veterinary Officer and head of anti-doping with the IHRB and by Mr. Gray, chief scientist for the animal sports section of LGC which is an IFHA reference laboratory. Mr. Comer says that he took all reasonable precautions to avoid such a breach. He sought to undermine the Board's results based on testing hair samples, claiming that hair was not reliable as a stand-alone matrix. The levels of prohibited substances could not be quantified. He postulated environmental contamination as the most plausible reason for the analytical findings.

It is fair to say that there was no direct evidence of deliberate doping in this case. The Board makes the case that there is no basis for concluding that there was environmental contamination because there are no documented cases of this with regard to MD and MT. The Board argues that the case made by Mr. Comer is not based on empirical fact but on speculation.

Hair is a recognised accredited matrix by the International Federation of Horseracing (IFHA) and the Association of Official Racing Chemists

(AORC). While it is not used as widely as blood and urine for testing, the Committee heard a substantial amount of credible evidence to show that it is being increasingly used and is particularly useful in allowing a more extended look-back period for the presence of Prohibited At All Times (PAAT) substances. It has been used in Ireland for testing since at least 2016. The Committee accepts the evidence of Dr Scarth, Mr. Gray, Dr. Sykes, Dr. Moeller and Professor Stanley as to the use and benefit of hair analysis in detecting PAAT substances. MD and MT do not show up in blood or urine samples after a short period because they clear very rapidly from the body but deposit in hair. Accordingly, hair samples can show traces of these substances long after they have been administered or ingested. (Dr. Scarth 17th May p.38) Insofar as a number of witnesses called on behalf of Mr. Comer sought to discredit hair as a stand-alone matrix, the Committee prefers the evidence of the witnesses referred to above. The Committee accepts that the use of hair as a matrix for testing for PAAT substances in a regulatory context is a relatively recent development but that is not a reason for calling into question its efficacy. Professor Kintz gave evidence that the IOC and WADA do not use hair as a matrix for testing for illegal doping in humans. However, he did not have a problem with the fact that it is used by some horse regulatory bodies. He concedes that his expertise is in the area of testing humans for prohibited substances and that he is not a specialist in the testing of horses. The Committee accepts the submission of the Board that comparisons between human and equine athletes are not comparing like with like. The Committee is satisfied that the use of hair as a sole matrix for testing the horses for PAAT substances was appropriate.

In view of the admissions and/or acknowledgements made by Mr. Comer charges 1 and 2 are proved. The question that has to be considered is how traces of the PAAT substances came to be found in the horses. There are several possibilities. They could have been administered to the horses deliberately. They could have entered the horses through a vector, such as an employee in the yard, acting innocently. Or they could, as Mr. Comer suggests, have entered the horses through environmental contamination. He suggests that hay consumed by his horses may have been contaminated with MD and/or MT through pig slurry. The Board relied on a BHA study where two thoroughbred horses were administered a 200mg daily dose of MD for seven days. Blood and urine samples taken from the horses were analysed. Dr. Scarth and Mr. Gray stated that in their opinion and based on the evidence available the amount of MD and/or MT that would need to be ingested to obtain the estimated concentrations observed in the positive samples is not consistent with it being present as a result of environmental contamination. Dr. Paine estimated the concentration of MD resulting from ingestion of supposedly contaminated hay using an established pharmacokinetic model which assumed horses eating 8kg of hay per day which corresponded with a daily dose of 0.76 mg of MD. The dose administered in the BHA study was 200mg per day which was 262 times greater than a dose of 0.76 mg. On that basis the Board maintains that the traces found in the hair samples are unlikely to have been caused by environmental contamination. It also adduced evidence to show that over a period of six years in 5,000 hair samples and over 60,000 equine plasma samples LGC have never

detected a signal consistent with the presence of MD or MT in any samples.

The Committee heard evidence from Mr. Gorman, the assistant trainer, of the feeding regime for the horses and how the better horses were fed better hay. Some testing of hay was carried out, but the Committee cannot be satisfied that samples of hay actually fed to the horses were tested. On the balance of probabilities the hay tested was not fed to the affected horses. This conclusion is reached on the basis of the evidence given by Mr. Luke Comer and Mr. James Gorman. The IHRB was never asked to test the hay. The first hay samples collected by Mr. Comer were in April 2022. While he maintains that hay from 2020 was the source of contamination, none of it was tested. Mr. Gorman accepted that approximately 20 horses stabled in the barn who received "good hay" did not test positive. Mr. Comer gave evidence that it was difficult to get the staff to comply with the instructions about feeding the good hay to the good horses. In any case, he admitted he only spends about three months of the year in Ireland, so it would be very difficult for him to properly supervise the operation. If contaminated hay was the problem, it is difficult to understand how some horses fed "good hay" tested positive and some did not. JHG examined forty-five samples. Five of them tested positive. Of the forty-five samples, eighteen involved hay sampled between 14th April 2022 and 27th May 2022. Only three tested positive and related to hay from 2021. This was not the hay which Mr. Comer contended was fed to the horses that tested positive. All water samples tested were negative. Of four slurry samples, two were taken on 14th April 2022 from "lagoon (1) and lagoon (2) and two were taken on 19th May 2022 from Kilmurray. Only one tested positive. No Kilmurray slurry from 2020 was sampled. The owner of Larchill Pig Farms, whose slurry was spread in 2021 and from which the hay was tested stated that his pigs had been legally prescribed Altresyn. But only one of two samples tested positive for MD and /or MT. LGC tested the same brand of Altresyn as JHG but had negative results for Altresyn. Out of 119 out-of-competition Comer horse samples tested by LGC, not one was positive. During the hearing a number of well qualified witnesses were highly critical of the JHG report and cast serious doubt on its reliability. These witnesses found his methods of analysis hard to interpret and had issues with the quality of the confirmatory data. The Committee heard Mr. Gough give evidence in defence of the JHG report and were in a position to see how he dealt with these criticisms and feels that it cannot place reliance on his report and evidence. Dr. Fogarty gave evidence in support of the theory of environmental contamination, but it was clear to the Committee that she was not an "expert" on the matters on which she opined. Furthermore, she lacked the independence required of an expert witness as she was coordinating the investigation which Mr. Comer had initiated and had offered samples from her own horses. The Committee disregards her evidence. In response to a question from a member of the Committee, Mr. Comer conceded that an employee could have accidentally caused contamination with MD or MT but there was little evidence that this is what occurred. Similarly, he conceded that some disgruntled employee could have interfered with the horses. But this was all in the realm of speculation and there was no actual, or circumstantial, evidence to support this. Overall it was difficult for the Committee to evaluate the evidence on environmental contamination.

The Committee accepts the evidence of those expert witnesses who said that they had never found MD or MT in the environment in extensive testing over years. Of 65,000 tests carried out by LGC, and any of the tests conducted by Dr. Moeller and Dr. Dunnett there was no evidence of a single signal consistent with MD or MT other than in the horses owned by Mr. Comer. The hay which is alleged to have caused the presence of the PAAT substances was never tested. On the basis of the evidence presented, no convincing case was made out for environmental contamination being the most likely explanation for the positive results. On the other hand, there was no direct evidence of deliberate administration of PAAT substances. While the Board invited the Committee to infer from the evidence that, in the absence of environmental contamination, it should conclude that the PAAT substances were deliberately administered, this would result in a finding of the most serious kind requiring evidence. In circumstances where an unannounced yard inspection found no traces of PAAT substances or objects associated with their administration, and in the light of the strenuous denials by Mr. Comer and Mr. Gorman that any such deliberate administration took place, the Committee must exercise caution before coming to the conclusion that there was deliberate doping in this case. Again, it is worth stating that Mr. Comer has not been charged with a breach of Rule 273 (1). In addition to his denials, Mr. Comer has spent an enormous sum of money to try and establish how his horses came to test positive. After considering a great deal of evidence the Committee finds itself in the position of being unable to say, on the balance of probability, how the horses came to test positive for the PAAT substances.

Charge 3 involves an alleged breach of Rule 147(vi) which only permits a trainer to train horses at a registered Training Establishment. Mr. Comer's registered Training Establishment is Eagle Lodge, Kiltarnan. He built a state-of-the-art gallop at Ballinteskil Stud and each day horses would be brought from Eagle Lodge to gallop there. When representatives of the Board inspected Ballinteskil Stud they found evidence which Dr. Hillyer said "...had all the appearance of an active training yard but without the horses". She described how a number of the boxes had been bedded down with straw and there was fresh dung in a number of the boxes and there were bales of hay in another barn. There was some feed in one of the boxes but she conceded that she would have expected to see more feed if all the horses concerned were in training there. Mr. Gorman explained how the horses were brought up and down to the gallop from Eagle Lodge and dealt with the evidence concerning the straw bedding and the limited amount of feed to cater for the needs of the horses while they were there. It is routine in horseracing for horses to be brought from Training Establishments to gallops away from the yard, for example to the Curragh. In submissions to the Committee the Board "accepts that a trainer can bring horses to locations other than his licensed premises to exercise". The Committee accepts the evidence of Mr. Comer and Mr. Gorman as to the use of the gallop at Ballinteskil Stud and does not consider it to be a Training Establishment within the meaning of the Rules. Accordingly, the Committee does not find Mr. Comer in breach of Charge 3.

Charge 4 alleges a breach of Rule 272 (1) in that Mr. Comer, whether verbally or by conduct or behaviour acted in a manner which is

prejudicial to the integrity, proper conduct or good reputation of horseracing (whether or not such behaviour or conduct, verbal or otherwise is associated directly with horseracing). The Committee does not see a direct equivalence between the case law on professional misconduct and the interpretation of Rule 272. It is not necessary to establish moral turpitude or conduct of a "morally culpable or otherwise disgraceful kind". In reaching our conclusions on this matter the Committee has regard to the evidence as a whole. There were aspects of the evidence which called into question the candour and credibility of Mr. Luke Comer. In his witness statement he claimed to have an "unblemished record". This was clearly not the case. In May, 2017 he was fined for failing to return 15 horses - out of training. In March, 2017 thirteen of nineteen horses required veterinary input, care and monitoring and there were three unregistered staff in his yard. On 3rd July 2017 he was fined €15,000 for providing false and misleading information. He was also fined for six riders not wearing body protection, failing to keep a medical register to required standards and failing to register two members of staff. In September 2017 he was found guilty of having a horse receive a vaccination less than seven days before a race. In March of that year he was found guilty of supplying misleading information at a stewards' enquiry. On two occasions he was found guilty of declaring a horse as a gelding when, in fact, it was a colt. At the hearing he was reluctant to admit some of these findings even though some had been admitted at the time, and he sought to minimise the seriousness of some of the findings. Mr. Comer was at pains to emphasise again and again how much money he was spending on his racing enterprise. But there were a number of issues which the Committee found troubling. Although Mr. Comer holds a trainer's licence he admits that he only spends three months a year in Ireland. His absence from the Country for long periods of time makes it extremely difficult for him to perform the duties expected of a licensed trainer. This is a matter the Licensing Committee may wish to consider. His assistant trainer and yard manager, Mr. James Gorman, gave evidence that on a typical day he arrives at the yard early in the morning and is there until 1pm or 2pm. He said that a head stable lad named Anezio Rocha was there in the afternoon and evening, but just dealing with issues of animal husbandry. At the time of the incidents giving rise to the charges there was poor security at the yard especially in terms of camera surveillance. It would have been all too easy for unauthorised persons to gain access to the horses undetected. The Committee is satisfied that for the reasons set out above Mr. Comer did not take all reasonable precautions to prevent a breach of Rule 96. The presence of PAAT substances in horses involved in racing is, in itself, prejudicial to the integrity, proper conduct of and good reputation of horseracing. That is why there is zero tolerance of the use of anabolic steroids in horses used for racing. In this case there was inadequate supervision and security in the yard which probably facilitated the absorption of the PAAT substances, however it occurred. It is, therefore, the view of the Committee that Mr. Comer is in breach of Rule 272(i) of the Rules.

Decision on Sanction issued to all parties on 13th September 2023.

On the 20th July, 2023 the Committee found Mr. Comer ("The Respondent") guilty of charges 1, 2 and 4 as set out in the decision delivered on

that date. The Committee now considers what sanctions would be appropriate.

In considering the appropriate sanctions the Committee has regard to the principle of proportionality and considers both aggravating and mitigating factors. The Committee has also considered a letter from the Respondent's solicitor dated 23rd August, 2023 which was addressed to the Committee and copied to the IHRB. The letter expresses concern with the Committee's finding that, *inter alia*, "...there was inadequate supervision and security in the yard which probably facilitated the absorption of the PAAT substances however it occurred."

The Respondent complains that he was never specifically charged with failing to have or provide adequate security in his yard and that the Board never put it to him or cross-examined him on the adequacy of his security. The Respondent maintains that he has a very advanced security system in place and wishes to be given a further opportunity to adduce evidence on the issue at a reconvened oral hearing. It appears from other submissions made subsequent to the hearing that the Respondent takes particular objection to the Committee's findings on the issue of inadequate camera surveillance. The Committee rejects the application for further evidence on this issue. In answer to questions from a Committee member, the Respondent gave an account which entitled the Committee to reach such conclusions. He was represented by Solicitor and Counsel and was re-examined by his Senior Counsel on the matter. At no time was any objection made that the Respondent was taken short or disadvantaged in giving his answers. The hearing lasted for a further three days after this account by the Respondent on Day 6, during which time no such objection was raised. In those circumstances, there cannot be any legitimate objection to the entitlement of the Committee to act on that evidence, even if it arose in an *ad hoc* manner. In any case, the Committee wishes to make it clear that even in the absence of that evidence there was other evidence on which it reached its conclusions on the question of inadequate security and supervision. The Respondent gave evidence that he only spends three months each year in this jurisdiction. He is a man with extensive business interests apart from his racing enterprise. It seems unlikely that he would spend the entirety of his time in Ireland each year engaged in activity relating to his horseracing business. But even if he did, it would be quite impossible for him to adequately supervise the racing yard throughout the year. The Respondent's assistant trainer, Mr. Jim Gorman, gave evidence that he is only at the yard from early in the morning until lunchtime. He said Mr. Anezio Rocha, the head stable lad, would be in charge in the afternoon and evening, but mainly in terms of animal husbandry.

The Sanctions imposed must be proportionate to the gravity of the offence and take into account the personal circumstances of the Respondent. There can be no doubt that the presence of Prohibited At All Times (PAAT) substances in twelve horses in the Respondent's yard is a very serious matter. The presence of PAAT substances in such a number of horses in a training establishment in this jurisdiction is quite unprecedented. Where a serious breach of the Rules occurs in the sport of horseracing, the principle of deterrence is a very important feature to be considered in determining an appropriate sanction. This is necessary to avoid trainers and others giving in

to the temptation to take steps which would give their horses an unfair advantage. Such conduct strikes at the very heart of the sport's integrity.

Mr. Comer is a wealthy man and the effect of a fine on him must be considered and the Committee must take into account his personal circumstances. If his licence was to be withdrawn for a period of time, there is no reason why his racing enterprise could not continue pretty much as normal. He is only in the jurisdiction for three months of the year and he has an assistant trainer, Mr. Gorman, on site.

The Respondent maintains that he is not guilty of any misconduct. The Committee has found that he is in breach of a number of Rules. His submission that "What the Committee has found is that he is not guilty of any deliberate act." is a mischaracterisation of the findings. In its Decision, the Committee said: "On the basis of the evidence presented, no convincing case was made out for environmental contamination being the most likely explanation for the positive results. On the other hand, there was no direct evidence of deliberate administration of PAAT substances. While the Board invited the Committee to infer from the evidence that, in the absence of environmental contamination, it should conclude that the PAAT substances were deliberately administered, this would result in a finding of the most serious kind requiring evidence." The Committee went on to say that it would have to exercise caution before coming to such a conclusion. In the end, the Committee found that it was not possible, on the evidence, to say how the horses came to test positive. That is the context in which the Committee has to decide on appropriate sanctions.

Charge 1.

This charge relates to a positive test in respect of the horse He Knows No Fear, arising out of a sample taken after a race at Leopardstown on 16th October, 2021 where traces of methandienone (MD) and methyltestosterone (MT) were found. These are PAAT substances. The Respondent did not admit this charge until the hearing and had, in respect of this Charge and Charge 2, put the Board on full proof (including the necessity of establishing hair as a suitable matrix for testing) which required a great deal of expense to be incurred in obtaining expert evidence and added significantly to the length of time required to complete the hearing. Allowing for the admission of the offence, albeit late in the day, the offence is a serious one and must be considered in light of the admission of the offence set out in Charge 2 involving a further eleven horses trained by the Respondent as a result of a test less than a month later.

The fine provided for in Rule 96 may be waived by the Committee "if it is satisfied that the Prohibited Substance was administered unknowingly and that the Trainer had taken all reasonable precautions to avoid a breach of this Rule". The burden of proving these matters rests on the Trainer. For the reasons set out in our decision of 20th July, 2023 the Committee found that the Respondent had not taken reasonable precautions to avoid a breach of the Rule and was unable to determine how the horses came to test positive. The Committee will impose a fine which will not be waived.

The sanction imposed on the Respondent for a breach of Rule 96 (a) is as follows:

He Knows No Fear shall be restricted from running for a period of two years from the date of his last run, which was 16th October 2021.

The horse shall be disqualified from the Leopardstown race on that date and the placings in the race shall be altered accordingly.

The Respondent (trainer) is fined €5,000.

The decision on whether the Respondent's license should be withdrawn will be dealt with below when considering Charges 1 and 2 together.

Charge 2.

This charge relates to an alleged breach of Rule 96(b) and/or (c) after twelve horses at the Respondent's training yard at 'Eagle Lodge' tested positive for MD and/or MT following an unannounced inspection of the yard on 10th November, 2023. As one of those horses was He Knows No Fear and was the subject of Charge 1 within a short time earlier, the Committee proposes to deal with this charge on the basis of the remaining eleven horses. The Respondent's approach to this charge was the same as in Charge 1, namely to put the Board on full proof and to challenge the use of hair as a suitable matrix in sampling. Very late in the day, the Respondent conceded liability under the rule but continued to challenge the use of hair samples thus adding significantly to the expense and length of the inquiry.

It is hardly necessary to state the gravity of the finding where it involved so many horses in one yard. It was quite unprecedented. That is an aggravating factor. The Committee will give the Respondent credit for eventually accepting liability for breach of the Rule but with the caveat that the issue of hair testing was doggedly pursued. Furthermore, the Respondent postulated environmental contamination as the most likely cause. This was not accepted by the Committee. The Committee will impose a fine for the breach of Rule 96(b) and/or (c).

For the reasons outlined above in respect of Charge 1, the Committee sees no reason to waive the fine which will be imposed.

The sanction imposed on the Respondent in respect of breach of Rule 96(b) and/or (c) is as follows:

The eleven horses other than He Knows No Fear specified in Charge 2 shall be restricted from running for a period of two years from 10th November 2021, being the date on which the samples were taken.

The Respondent (trainer) is fined €5,000 in respect of each of the eleven horses.

The Committee has considered whether the Respondent's license should be withdrawn and, in doing so, feels that the correct approach is to look at Charges 1 and 2 together to arrive at an appropriate sanction as the positive test result in respect of He Knows No Fear taken at Leopardstown racecourse may be replicated in the test taken at the yard. While these are first offences in respect of PAAT substances the Respondent had a number of other convictions for breaches of Rules. The large number of animals involved warrants a withdrawal of the Respondent's licence for a period of three years commencing on 1st January, 2024.

Charge 4.

This Charge alleges that by his conduct or behaviour, the Respondent has acted in a manner which is prejudicial to the integrity, proper conduct or good regulation of horseracing. The Committee has found the Respondent guilty of this charge, which is a breach of Rule 272(i). Under the powers invested in the Committee under Rule 19A 8(ii) the Committee imposes a fine of €20,000. This fine is based on the large number of horses which tested positive and the reputational damage this has on horseracing in Ireland. Under the powers vested in the Committee under Rule 19A 8(iii) the Committee withdraws the Respondent's licence for a period of three years from 1st January, 2024, to run concurrently with the withdrawal of his licence for breach of Rule 96.

Rule 272 provides: "Any person involved in horseracing who, within the jurisdiction of the IHRB.(ii)supplies misleading information to or gives false evidence .at a hearing by the Referrals Committee...shall be in breach of these Rules and liable to sanction".

The hearing before the Committee proceeded on the basis that witness statements would be taken as evidence subject to any amendments or clarification a witness might wish to draw to the attention of the Committee at the commencement of their viva voce evidence. In his witness statement the Respondent said, "I have an unblemished record as a trainer". This statement was manifestly untrue. At the hearing, the Respondent was asked by his Counsel if there was anything he wished to change in it and he replied, "Not really". On day 6 of the hearing Counsel for the Board took the Respondent through the records of the Board which established that the Respondent had been found guilty of multiple breaches of the Rules in the past, including the supply of misleading information. He had been disciplined and, in some cases, fined for these breaches. The Respondent said that some of the Rule breaches had been admitted. When the previous Rule breaches were put to him he sought to explain some of them away and to minimise what had occurred. But what is beyond doubt is that he did not have an unblemished record. The Transcript of the evidence on Day 6 of the hearing speaks for itself. The Committee is satisfied that the Respondent supplied misleading evidence and is in breach of Rule 272(ii) and imposes a fine of €5,000 on the Respondent.

Costs.

The Committee directs that the Respondent pay 80% of the costs incurred by the IHRB in prosecuting this matter. We understand that a sum of €107,794.15 is claimed for laboratory costs (excluding salaries). Most of that sum is for analysis of 'A' samples taken from horses owned by the Respondent. The Committee will disallow that sum because it is part of the Board's regulatory function to collect such samples. But under that heading the Committee will allow the sum of €1,385.15, being the costs incurred in testing for Altreysyn, which was claimed by the Respondent to be a potential source of contamination.

The case was presented by Ronan Kennedy SC, Caoimhe Daly BL and Alison Fynes BL instructed by DAC Beachcroft Solicitors, Dublin, on behalf of the IHRB. Mr. Comer was represented by Martin Hayden SC and Frank Crean BL instructed by Coonan Cawley Solicitors, Naas, County Kildare.

Referral

The Referrals Committee, Mr. Peter M. Allen (Chair), Mr. Jack Rearden and Mr. Peter N. Reynolds convened at Offices of the Irish Horseracing Regulatory Board on Monday 28th August 2023 to consider the referral of Eoin Christopher McCarthy, Trainer, by a Senior Racing Official following the fixture at Cork on the 7th August 2023.

On the day, following the running of the Kanturk Handicap Hurdle, won by Rathnaleen Kal, trained by Mr. McCarthy, it was noted that in a television interview Mr. McCarthy appeared to provide an explanation for the poor performance of his mount on her previous start in the Follow Us On Instagram Mares Handicap Hurdle on 14th July 2023.

The matter was referred to the Referrals Committee for further consideration by a Senior Racing Official as Rathnaleen Kal had been reassessed by the Irish National Hunt Handicapper and dropped 2lbs following her run on 14th July 2023. At the Referral Hearing, evidence was heard from Mr. McCarthy. The panel also viewed a recording of the television interview in question where Mr. McCarthy stated: "we were initially very disappointed the last day but it turned out when we went home she was in season, so we had an excuse, up to that her form was very solid."

In his evidence, Mr. McCarthy accepted that he made the comments in a television interview but said he had no proof that Rathnaleen Kal was in season following her last run but he did find her uncharacteristically quiet the morning after the race. Mr. McCarthy said it was possible she was in season but that he had just given this explanation in the interview as he had been asked beforehand why she ran so bad on her previous start. Mr. McCarthy added that Rathnaleen Kal lived in a pen rather than a stable but at the time of her run on 14th July she was moved to a stable for a few days due to works being carried out in the yard. Mr. McCarthy stated that he felt this was a more likely explanation for her poor performance.

Having considered the evidence, the Referrals Committee were satisfied that Mr. McCarthy was in breach of Rule 213(iii) in that he had declared quite clearly in an interview that Rathnaleen Kal was in season following her run at Cork on 14th July 2023 and thus he had failed to report as soon as possible anything which might have a bearing on the past or future running of his charge after it had left the Racecourse. Having considered Mr. McCarthy's record in this regard, the consequences of the 2lbs drop in the ratings and the subsequent victory of Rathnaleen Kal, the Referrals Committee imposed a fine of €500 on Mr. McCarthy.

Referral

The Referrals Committee, Mr. Peter M. Allen (Chair), Mr. Jack Rearden and Mr. Peter N. Reynolds convened at Offices of the Irish Horseracing Regulatory Board on Monday 28th August 2023 to consider the referral of Peter Fahey, Trainer, by the Raceday Stewards at Ballinrobe on the 25th July 2023.

On the day, prior to the running of the Ballinrobe Credit Union INH Flat Race, the Raceday Stewards received a report from the IHRB Veterinary Officer, Ms. Nicola O'Connor, that she was unable to positively identify Soleil Couchant, trained by Peter Fahey, from the

markings and microchip contained in the passport presented. The Raceday Stewards ordered the withdrawal of Soleil Couchant as per Rule 90(iv) and referred the matter to a Senior Racing Official for further investigation.

At the Referral Hearing, the Committee considered evidence from Mr. Fahey.

In his evidence, Mr. Fahey said that he was very familiar with this horse having been brought to see him by the owners as a foal and seeing him on a regular basis since then. Mr. Fahey accepted that he failed to microchip the horse on arrival to his yard because he was so familiar with him and knew it was the correct horse. Mr. Fahey explained that he was very surprised to receive a call from his authorised representative at Ballinrobe on the evening and investigated the matter further with the owner who informed him that the horse had an infection prior to going into training and the microchip had been replaced but not updated on his passport. Mr. Fahey accepted full responsibility for the error. Mr. Fahey informed the committee that the matter had now been rectified.

Having considered the evidence, the Referrals Committee were satisfied that Mr. Fahey was in breach of Rule 90(ii). Having considered Mr. Fahey's record in this regard, the Referrals Committee imposed a fine of €500.

Referral

The Referrals Committee, Mr. Peter M. Allen (Chair), Mr. Jack Rearden and Mr. Peter N. Reynolds convened at the Offices of the Irish Horseracing Regulatory Board on Monday 28th August 2023 to consider the referral of Mr. James Browne, Owner, by the IHRB Appeals Body following a hearing on Wednesday 16th August 2023.

On that day, the Appeals Body, Ms. Susan Ahern, B.L., (Chair), Mr. Nicholas Wachman and Mr. John Murphy had convened at the Offices of the Irish Horseracing Regulatory Board to consider an appeal by Mr. Browne against the decision of the Raceday Stewards at Killarney to call the Winner All Right of the William Hill Ireland Maiden at Killarney on 18th July 2023. Having considered the evidence, the Appeals Body ordered the appropriate next step was to remit consideration of the Winner All Right decision to a Referrals Committee to consider the race.

At the Referral Hearing, the Committee considered evidence from Mr. Ben Browne, on behalf of Mr. James Browne, Owner of Most Wanted, from Ronan Whelan, Rider of Most Wanted, placed second, from Leigh Roche, Rider of Coolree, placed first, and from Mr. Patrick Kennedy, Solicitor on behalf of Miss Jennifer Lynch, trainer of Coolree. The Committee also watched a recording of the race.

In his evidence, Mr. Whelan explained that he felt like he was coming with a winning run but that just as his mount was coming upsides Coolree he felt Most Wanted running around slightly with an unusual head carriage which caused him to lose all momentum. Mr. Whelan stated that he know why Most Wanted was carrying himself in this manner but that he became aware later that Mr. Roche's whip had made contact with Most Wanted, having viewed the video footage.

In his evidence, Mr. Roche stated that his mount was hanging right out of loneliness having been in front for a considerable amount of time but that, once joined by Most Wanted and Mr. Whelan, Coolree was always holding Most Wanted towards the line. Mr. Roche said that it was unfortunate the horses came close but there was no shout from Mr. Whelan and that it was just a racing incident.

In his evidence, Mr. Browne said that he felt Mr. Roche caused serious interference and should have been more aware of his surroundings. Mr. Browne suggested that the interference which was caused by Mr. Roche's whip use had cost Most Wanted at least a length and he was only a half-length down at the time of the interference and the winning margin was also a half-length.

Having considered the evidence, the Referrals Committee was satisfied that Coolree had caused interference to Most Wanted, and they were of the opinion that as a result of the interference Coolree improved his placing in relation to Most Wanted, and so they ordered that the placings be reversed.

The Amended result of the William Hill Ireland Maiden now reads:

| | |
|---------|--------------------|
| First: | Most Wanted |
| Second: | Coolree |
| Third: | God Knows |
| Fourth: | Indigo Five |
| Fifth: | Believe In Science |

Furthermore, the Committee was satisfied that Mr. Roche was in breach of Rule 214 in that he ridden carelessly. Having considered his record in this regard the Committee cautioned Mr. Roche on this occasion. The Committee also found Mr. Whelan in breach of Rule 213(ii) in that he failed to report in the first instance anything that might have affected the running of his horse in the race. Having considered his record in this regard, the Committee cautioned Mr. Whelan on this occasion.

The case was presented by Mr. Michael Daly, IHRB Regulatory Legal Advisor. Mr. James Browne was represented by Mr. Ben Browne. Miss Jennifer Lynch, Trainer of Coolree, was represented by Mr. Patrick Kennedy of Patrick J. O'Meara Solicitors, Thurles, County Tipperary.

Appeal

The Appeals Body, Mr. N.B. Wachman (in the chair), Mr. Michael Hickey and Mr. Jack Rearden convened at the Offices of the Irish Horseracing Regulatory Board on Wednesday, 13th September 2023 to consider the appeal of R.P. Cleary (Rider) following the decision of the Raceday Stewards at Tipperary on Sunday, 3rd September 2023.

Following the running of the Coolmore No Nay Never Fairy Bridge Stakes, the Raceday Stewards found Mr. Cleary in breach of Regulation 10.3(a) in that he had used his whip in front of the saddle while held in the forehand position and Regulation 10.3(g) in that he had used his whip with excessive frequency. Having considered his record in this regard the Raceday Stewards suspended Mr. Cleary for five racedays.

The grounds of appeal lodged by Mr. Cleary was that the Stewards on the day erred in their decision.

At the Appeal Hearing, evidence was heard from Mr. Cleary, rider of Clever and Cool. The Appeals Body also watched a recording of the race.

In his evidence, Mr. Cleary stated that his filly is a tricky filly and on the five occasions that he has ridden her this year, he has reported that she was either slow away or leaning left or right. On this occasion, he came around the bend on the outside to get a clear run in the straight. Mr. Cleary added that horses on his inside drifted out to him and he received a bump taking him off his line and causing his filly to lean left. Mr. Cleary further stated that he used his whip in his forehand to try to get his filly running in a straight line again, which he felt he achieved, and if he hadn't used his whip in this manner there would have been a riding incident.

Having considered the evidence, the Appeals Body were satisfied that Mr. Cleary was in breach of Regulation 10.3(a) in that he had used his whip in front of the saddle while held in the forehand position, and Regulation 10.3(g) in that he had used his whip with excessive frequency. Having considered Mr. Cleary's record in this regard, the Appeals Body imposed a suspension of four racedays.

Suspension dates 18th, 19th, 21st and 22nd of September.

STANDARD CONDITIONS

The Racing Calendar Office of Weatherbys Thoroughbred Ltd. receives entries submitted for acceptance as agents for the Racecourse Authority and only upon the terms of the Standard Conditions. Acceptance of entries is subject to the power to refuse to allow entries to be accepted conferred by the Orders and Rules of Racing on the British Horseracing Authority Ltd. Entries are accepted by the Racing Calendar Office, acting as aforesaid, causing the name of the horse in question to be published as being entered for the race in question either in The Racing Calendar, when the race closes more than six days before running, or, for other races, on the British Horseracing Authority Racing Administration Internet site (www.racingadmin.co.uk) and ordinarily in the Sporting Press.

For further details on Standard Conditions, reference should be made to "Standard Conditions" on the Racing Bulletin area of the Racing Administration Internet site (www.racingadmin.co.uk) for the full details.

FRANCE - Owners and trainers of horses trained outside of France are reminded that, to enter any horse in a French race for the first time, they must register their horses in training through their access online at least 8 days before the closing time of entry, with the correct name of the horse, its suffix, sex, year of foaling and pedigree (sire, dam and sire of dam).

This declaration is not considered as an entry. Trainers are to make their entries and other declarations directly online. They must also supply a complete race record of all the performances of the horse(s) entered on the Internet, by fax (33 1 47 61 93 37) or email (fgperf@france-galop.com). The entry will not be valid if these performances are not received by the international department at Racing Operations by the time of the first forfeit, or on the eve of the declaration to run (if entries were made more than a month before the race). When declaring a horse to run, it is the responsibility of the trainer to check the weight carried.

Italy - Owners and trainers of horses trained outside Italy are informed that, the first time they enter any horse to run in Italy, they must include with the entry the correct name, sex, year of foaling, pedigree (sire, dam and sire of dam) and the name of the country where the horse was foaled.

McMonagle stated that he was three off the rail and kept his racing line. W.J. Lee stated that he was trying to keep off heels. The Raceday Stewards requested a report from Anthony Mullins, trainer, as to the apparent improvement in form of Duncarrig, placed first, as compared with its most recent form. The trainer reported that his charge had disappointed on its previous run and may have suffered from a lack of confidence owing to a fall prior to that. J.J. Slevin stated that his horse shifted slightly left after the last hurdle but felt he was always holding Wodhooh on the run to the line. Having viewed the recording of the race and considered the evidence, the Raceday Stewards were of the opinion that Nurburging had caused interference to Wodhooh and as a result of this interference had improved its finishing position. As a consequence, the Raceday Stewards reversed the placings of the first and second placed horses and amended the result to read as follows: **First:** Wodhooh, **Second:** Nurburging, **Third:** Spinning Web, **Fourth:** Hands On, **Fifth:** Burvea and **Sixth:** Ifitwasme.
